

Technical Committee on Assistive Engineering

Let's Enhance the Quality of Life (QOL) by Engineering

1. Goal

Making an opportunity to improve QOL by engineering

2. Problem

Engineering is not used good enough in assistive technology

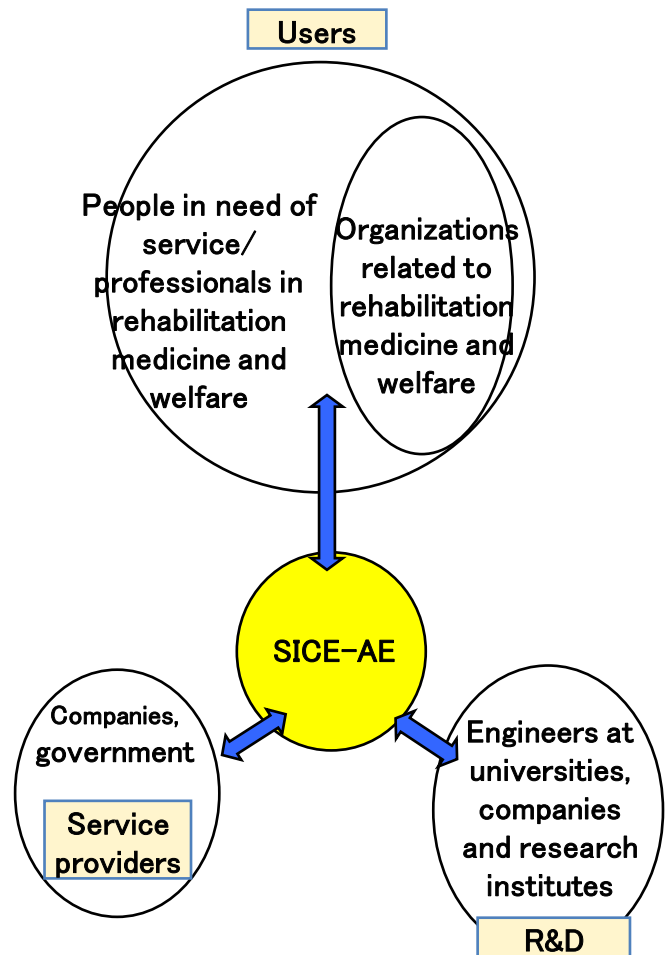

3. Strategy

Owing to various kinds of therapists or professionals, symposiums or seminars are held for getting common information.

4. Activity Plan

Enlightenment of point of issues for enhancing QOL and extensive knowledge
